that's the millennium. But it happened last week.

The determination of Governor Holland, loyally backed by Comptoller Lee, to enforce the new tax laws has swept the state. This observer though that in common with most legislation, the 1941 tax reform laws would be squabbled over and litigated about until almost time for another session. But such does not seem to be the prospects for this group of laws.

After the meeting of county officials with the governor two weeks ago, to discuss and inaugurate the new tax era in Florida, the county assessors returned to their respective counties and to a man pitched in to make a real sure enough 100 per cent assessed valuation. FIRST IN THE NATION
Manager Hiram Bakes of the State Farmers Market at Pompano reports cash sales of nearly \$5,000,000 bast season, establishing it as the largest produce market in the United States.

This is a fine record and it furnishes sufficient proof of the value of the Broward County institution to the growers as well as to the produce trade.

But the Pompano market had better look to its laurels. A new one will be in the filed next season at Pahokee that also promises quickly to reach the top brackets, so far as sales are concerned.

Not that the two markets are in any sense rivals because they serve entirely different territories. But the remarkable regord made by the one at Pompano had expected at Pahokeication of what may be a sale as the promote of the production of

Sales at Pompano jumped from 878-828 packages during the previous season to 1-912-241 in 1940-94, with 1,137,531 hampers of snap beans Beading the list. Peppers, tomatoes, eggplants, lima beans, squash, cumbers, not peppers, plotatoes and miscellaneous items accounted/for the rest. While most of this produce was produced in Broward Country growers in the coastal section of Palm Beach County furnished a, large share. Vast quantities of snap beans, lima beans and squash grown in the lower part of this country are sold over the Pompano platform.

It affords the farmers' a constant cash market with sufficient connectition among buyers to assure them the best f.o.b. prices obtainable. Because a steady supply of produce is available there the buyers can afford to pay somewhat higher prices than if they were required to travel about in search of shipments.

The Bushes were required to travel about in search of shipments, and the shipments of the shipments of the shipment in point of size, and gives every promise of being equally valuable to growers and buyers along the castern shore ers and buyers along the castern shore of Lake Okecyholice—Falim Beach Post.

ARE YOU A PART TIME CITIZEN?

Being a citizen in a democracy is a full time job. In other forms of government, the citizenry make up the background, appearing only in mob scenes to cheer on the rulers of the nation.

But there is no room for part time citizens in our form of government. Our government is us—what we make it. Ours is the fault if the wheels of government do not run smoothly, for the lans we made are the machine, and the men we elected are the machine.

Are you a part time citizen? Do you ful-

the machine, we have decreased and the machine are your part time citizen? Do you fulfill all your duties as a voter—or do you just show up at election time to cast your cote without due consideration of the full qualifications, record and principles of all candidates.

Are you a part time citizen? Do you obey the laws you have had a hand in making—or is your only thought when you break what seems like an inconsequential little law that if you get away with it, it's all right?

A NEW ANSWER

A NEW ANSWER

The real answer to the old summer chestnut, "E it hot enough for you?" is "When
I want it hotter I'll go up North."

Returning vacationists to St. Augustine
from Denver, Colo. St. Louis, Mo., and
points in Olio tell of real suffering from
heat. They found relief at home, because
they could find a breeze, and the nights are

GIVE YOUR CAR HIGH ANTI-KNOCK **BOTH SPEED RANGES**

Don't you find that you drive your car mainly in the two speed ranges symbolized by these boats? You use the low speed range in traffic and the high speed range on the open road. Therefore for knockless driving, you need a gasoline that gives high antiknock in both these speed

ranges-not in just one.

Sinclair H-C Gasoline gives you this Double-Range Anti-Knock. The reason is that H-C goes through two special processes in the course of refining. Ask your nearby Sinclair Dealer for a tankful of Sinclair H-C Gasoline today. It gives you Double-Range Anti-Knock, yet sells at

the price of regular grade.
